Original Investigations

Ultrasound in adherent placenta
Alaa M. Abdel Moniem et al.; Cairo, Egypt; Ahmadi, Kuwait

Diagnosis and prognosis of ovarian cancer using FDG-PET/CT
Laura Evangelista et al.; Padova, Italy

The contribution of a new type of partogram in labor management
Georgios Vlachos et al.; Alexandroupolis, Athens, Greece

Sleep quality in menopause
Kağan Ağan et al.; Düzce, Turkey

Adjuvant radiotherapy for early-stage endometrial cancer
Abdurrahman Hamdi İnan et al.; Ardahan, Istoibal, Erzincan, Konya, Izmir, Turkey

Comparison of anesthetic techniques in terms of blood loss
Hüseyin Aksoy et al.; Kayseri, Ankara, Turkey

Laparoscopic management of morbidly obese patients
Özgür Bige et al.; Tekirdağ, Elazığ, İzmir, Turkey

Biorbital and interorbital distances in healthy Turkish pregnancies in second trimester
Halil Gürsoy Pala et al.; Manisa, Turkey

Glyceryl trinitrate for preterm labor
Şafak Çalışkan et al.; Aydın, Erzincan, Ankara, Adana, Turkey

Journal of the Turkish-German Gynecological Association is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and Turkish-German Gynecological Association and is published quarterly on March, June, September and December.

The target audience of Journal of the Turkish-German Gynecological Association includes gynaecologists and primary care physicians interested in gynecology practice. It publishes original work on all aspects of gynecology. The aim of Journal of the Turkish-German Gynecological Association is to publish high quality original research articles. In addition to research articles, reviews, editorials, letters to the editor and case presentations are also published.

It is an independent peer-reviewed international journal printed in English language. Manuscripts are reviewed in accordance with “double-blind peer review” process for both referees and authors.

Journal of the Turkish-German Gynecological Association is indexed in PubMed Central, EMBASE, Scopus, CINAHL, Gale/Cengage Learning, EBSCO, DOAJ, ProQuest, Index Copernicus, TÜBİTAK ULAKBİM TR Index and Turkiye Citation Index.

Subscription Information
Journal of the Turkish-German Gynecological Association is distributed free of charge to all physicians, specialists in gynecology field. For subscription please contact Turkish-German Gynecological Education and Research Foundation at www.jtgga.org. The access to tables of contents, abstracts and full texts of all articles published since 2000 are free to all readers via the journal’s webpage. Visit the journal’s home pages for details of the aims and scope and instruction to authors.

Permission
Permission requests to reproduce copies of articles for non-commercial use may be obtained from the Editorial Office:

Instructions for Authors
Instructions for authors page at the journal is available in the journal content and at www.jtgga.org.

Disclaimer
The statements and opinions contained in the articles of the Journal of the Turkish-German Gynecological Association are solely those of the individual authors and contributors not of the Turkish-German Gynecological Education and Research Foundation, Turkish-German Gynecological Association, Turkish Society of Reproductive Medicine, Editorial Board or AVES.

The journal is printed on acid-free paper.
Instructions for Authors

The “journal of the Turkish German Gynecological Association” follows the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” (International Committee of Medical Journal Editors - http://www.icmje.org/). Upon submission of the manuscript, authors are to indicate the type of trial/research and provide the checklist of the following guidelines when appropriate:

STROBE statement-checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/),

Human and Animal Studies

Manuscripts submitted for publication must contain a statement to the effect that all human studies have been reviewed by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards described in an appropriate version of the 1975 Declaration of Helsinki, as revised in 2000. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. Experimental animal studies should be presented with the disclosure of the appropriateness to the institutional/national/international ethical guides on care and use of laboratory animals.

Reports of animal experiments must state that the “Principles of laboratory animal care” (NIH publication No. 85-23, revised 1985) were followed, as well as specific national laws where applicable.

The editors reserve the right to reject manuscripts that do not comply with the abovementioned requirements. The author will be held responsible for false statements or for failure to fulfill the above mentioned requirements.

In a cover letter the authors should state if any of the material in the manuscript is submitted or planned for publication elsewhere in any form including electronic media. The cover letter must contain address, telephone, fax and the e-mail address of the corresponding author.

Conflict of Interest

Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. They should also state that they have had full control of all primary data and that they agree to allow the Journal to review their data if requested. Therefore manuscripts should be accompanied by the “Conflict of Interest Disclosure Form.” The form can be obtained from the journal webpage (www.jtgga.org).

Copyright

The author(s) transfer(s) the copyright to his/her article to the Journal of the Turkish German Gynecological Association effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form). It also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Submissions must be accompanied by the “Copyright Transfer Statement”. The form is available for download on the journal’s manuscript submission and
evaluation site. The copyright transfer form should be signed by all contributing authors and a scanned version of the wet signed document should be submitted.

Manuscript Specifications
Submissions should have the following parts.

Title Page
A separate title page should be submitted with all submissions and should include the title of the article, name(s), affiliations and major degree(s) of the author(s) and source(s) of the work or study, a short title (running head) of no more than 50 characters. The name, address, telephone (including the mobile phone number) and fax numbers and e-mail address of the corresponding author should be listed on the title page.

Abstract
All manuscripts should be accompanied by an abstract. A structured abstract is required with original articles and it should include the following subheadings: Objective, Material and Methods, Results and Conclusion. A structured abstract is not required with review articles and case reports. The abstract should be limited to 250 words for original articles and review articles and 150 words for case reports.

Keywords
Below the abstract provide 3 to 5 Keywords. Abbreviations should not be used as Keywords. Keywords should be picked from the Medical Subject Headings (MeSH) list (www.nlm.nih.gov/mesh/MBrowser.html).

Original articles should have the following sections.

Introduction
State concisely the purpose and rationale for the study and cite only the most pertinent references as background.

Material and Methods
Describe the plan, the patients, experimental animals, material and controls, the methods and procedures utilized, and the statistical method(s) employed. In addition to the normal peer review procedure, all randomized controlled trials (RCTs) submitted to the journal are sent to members of a team of professional medical statisticians for reviewing.

Address “Institutional Review Board” issues as stated above. State the generic names of the drugs with the name and country of the manufactures. Provide information on informed consent and ethics committee approval.

Results
Present the detailed findings supported with statistical methods. Figures and tables should supplement, not duplicate the text; presentation of data in either one or the other will suffice. Emphasize only your important observations; do not compare your observations with those of others. Such comparisons and comments are reserved for the discussion section.

Discussion
State the importance and significance of your findings but do not repeat the details given in the Results section. Limit your opinions to those strictly indicated by the facts in your report. Compare your finding with those of others. Provide information on the limitations of the study. No new data are to be presented in this section.

The main text of case reports should be structured with the following subheadings: Introduction, Case Presentation, Discussion.

References
Number references in Arabic numerals consecutively in the order in which they are mentioned in the text starting with number “1”. Use the form of the “Uniform Requirements for Manuscript Submitted to Biomedical Journals” (http://www.amaassn.org/public/peer/wame/uniform.htm). If number of authors exceeds seven, list first 6 authors followed by et al.

Journal titles should conform to the abbreviations used in “Cumulated Index Medicus”.

Examples:
Journals;

Book chapter;

Book;

Tables and Figures
Tables should be included in the main document after the reference list. Colour figures or gray-scale images must be at minimum 300 DPI resolution. Figures should be submitted in “.tiff”, “.jpg” or “.pdf” format and should not be embedded in the main document. Tables and figures consecutively in the order they are referred to within the main text. Each table must have a title indicating the purpose or content of the table. Do not use internal horizontal and vertical rules. Place explanatory matter in footnotes, not in the heading. Explain all abbreviations used in each table in footnotes. Each figure must have an accompanying descriptive legend defining abbreviations or symbols found in the figure. If photographs of people are used, the subjects must be unidentifiable and the subjects must have provided written permission to use the photograph. There is no charge for colour illustrations.

Units of measurement and abbreviations
Units of measurement should be in Système International (SI) units. Abbreviations should be avoided in the title. Use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used.

Revisions
Revisions will be sent to the corresponding author. Revisions must be returned as quickly as possible in order not to delay publication. Deadline for the return of revisions is 30 days. The editorial board retains the right to decline manuscripts from review if authors’ response delays beyond 30 days. All reviewers’ comments should be addressed and a revision note containing the author’s responses to the reviewers’ comments should be submitted with the revised manuscript. An annotated copy of the main document should be submitted with revisions. The Editors have the right to withdraw or retract the paper from the scientific literature in case of proven allegations of misconduct.

Accepted articles
Accepted articles are provided with a DOI number and published as ahead of print articles before they are included in their scheduled issue.

Contents

Original Investigations

126 Accuracy of three-dimensional multislice view Doppler in diagnosis of morbid adherent placenta
Alaa M. Abdel Moniem, Ahmed Ibrahim, Sherif A. Akl, Loay About-Enen, Ibrahim A. Abdelazim; Cairo, Egypt; Ahmadi, Kuwait

137 Diagnostic and prognostic evaluation of fluorodeoxyglucose positron emission tomography/computed tomography and its correlation with serum cancer antigen-125 (CA125) in a large cohort of ovarian cancer patients
Laura Evangelista, Maurizia Dalla Palma, Michele Gregianin, Margherita Nardin, Anna Roma, Maria Ormella Nicoletto, Giovanni Battista Nardelli, Vittorina Zagonel; Padova, Italy

145 The effect of the use of a new type of partogram on the cesarean section rates
Georgios Vlachos, Panagiotis Tsikouras, Barchar Manav, Grigorios Trypsianis, Vasileios Liberis, Sakellarios Karpathios, Georgios Galazios; Alexandroupoli, Athens, Greece

149 Evaluation of sleep in women with menopause: results of the Pittsburg Sleep Quality Index and polysomnography
Koçan Ağan, Recep Ozmerdiventi, Yıldız Değirmenci, Mete Çağlar, Alper Başbaş, Ege Güleç; Balbay, Mehmet Ali Sungur; Düzce, Turkey

153 Is adjuvant radiotherapy necessary for FIGO stage 1a grade 2 endometrial endometrioid adenocarcinoma?
Abdurrahman Hamdi İnan, Gökşin Şahin Ersoy, Yusuf Yıldırım, Tuğku Gürbüz, Ayşe Gül Kebapçiler, Merih Hanhan; Ardahan, İstanbul, Erzincan, Konya, İzmir, Turkey

158 Blood loss in elective cesarean section: is there a difference related to the type of anesthesia? A randomized prospective study
Hüseyin Aksoy, Ülkü Aksoy, Burak Yücel, Sezin Sayı Özyurt, Gökhan Açmaz, Mustafa Alparslan Babayığit, Günhan Gökahmetoğlu, Turgut Aydıner; Kayseri, Ankara, Turkey

164 Laparoscopy versus laparotomy for the management of endometrial carcinoma in morbidly obese patients: a prospective study
Özgür Bige, Ahmet Dernir, Bahadır Saatli, Meral Koyuncuoğlu, Üğur Sayığlı; Tekirdağ, Elazığ, İzmir, Turkey

170 Normal ranges of bi-orbital and interorbital distances in healthy Turkish pregnancies at 19–23 weeks of gestation and correlation with craniofacial structures
Halil Gürsoy Pala, Burcu Arıcan-Ültürmen, Faik Mumttaz Köyuncu, Yıldız Uyar, Yeşim Bülbul-Baytur; Manisa, Turkey

Reviews

179 Possible role of DaVinci Robot in uterine transplantation
Christos Iavazzo, Ioannis D. Gkegkes; Manchester, United Kingdom; Athens, Greece

181 Parasitic myoma after laparoscopic surgery: a mini-review
Hakan Erenel, Osman Ternizkan, Beşir Aydoğan Mathyik, Suat Karataş; İstanbul, Turkey

Case Reports

187 G-spot augmentation with autologous fat transplantation
Christian Herold, Melodi Motamedi, Uwe Hartmann, Sixtus Allert; Hannover, Germany

189 Vaginal angiomatosis: differential diagnosis of a rare case
Flavio Grauso, Giancarlo Balbi, Maria Luisa D’Aponite, Andrea Ronchi, Roberto Russo, Francesca Falcone, Enrico Michelino Messali; Naples, Italy

Quiz

192 What is your diagnosis?
Kandala Aparna Sharma, Vatsla Dadhwal, Ashish Kumar Saini, Sunita Agarwal, Shobha Kandpal; New Delhi, India

Letter to the Editor

194 Use of operative laparoscopy in single incision and natural orifice transvaginal surgery
Daniel Tsir; Berlin, Germany
