Original Investigations

Simulation and outcomes of hysterectomy
Mehmet Reşit Asoğlu et al.; Texas, Tennessee, USA

Chorionic villus sampling and the risk of preeclampsia
Ahmet Başaran et al.; Konya, Turkey; Mississippi, USA

Primary peritoneal cancer in BRCA carriers
Christos Iavazzo et al.; United Kingdom; Athens, Greece

BRCA1 and BRCA2 variations in patients with POI
Nafiye Karakaş Yılmaz et al.; Ankara, Turkey

PCOS, BMI, and age
Müberra Namli Kalem et al.; Ankara, Turkey

PGD for translocations: Maternal age effect
Pınar Tulay et al.; Nicosia, Cyprus; İstanbul, Turkey

Analyzing of mBOTs
Duygu Kavak Cömert et al.; Ankara, Turkey

Neovagina operation by McIndoe technique
Oya Soylu Karapınar et al.; Hatay, Ankara, Turkey
Journal of the Turkish-German Gynecological Association is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and Turkish-German Gynecological Association and is published quarterly on March, June, September and December.

The target audience of Journal of the Turkish-German Gynecological Association includes gynaecologists and primary care physicians interested in gynecology practice. It publishes original work on all aspects of gynecology. The aim of Journal of the Turkish-German Gynecological Association is to publish high quality original research articles. In addition to research articles, reviews, editorials, letters to the editor and case presentations are also published.

It is an independent peer-reviewed international journal printed in English language. Manuscripts are reviewed in accordance with “double-blind peer review” process for both referees and authors.

Journal of the Turkish-German Gynecological Association is indexed in PubMed Central, Thomson Reuters – Emerging Sources Citation Index, EMBASE, Scopus, CINAHL, Gale/Cengage Learning, EBSCO, DOAJ, HINARI, ProQuest, Index Copernicus, TÜBİTAK ULAKBİM TR Index and Türkiye Citation Index.

Subscription Information
Journal of the Turkish-German Gynecological Association is distributed free of charge to all physicians, specialists in gynecology field. For subscription please contact Turkish-German Gynecological Education and Research Foundation at www.jtgga.org. The access to tables of contents, abstracts and full texts of all articles published since 2000 are free to all readers via the journal’s webpage. Visit the journal’s home pages for details of the aims and scope and instruction to authors.

Instructions for Authors
Instructions for authors page at the journal is available in the journal content and at www.jtgga.org.

Disclaimer
The statements and opinions contained in the articles of the Journal of the Turkish-German Gynecological Association are solely those of the individual authors and contributors not of the Turkish-German Gynecological Education and Research Foundation, Turkish-German Gynecological Association, Turkish Society of Reproductive Medicine, Editorial Board or AVES.

The journal is printed on acid-free paper.
Instructions for Authors

The "Journal of the Turkish German Gynecological Association" (ISSN 1309-0359; Abbreviated as “J Turk Ger Gynecol Assoc”) is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and the Turkish-German Gynecological Association. Formerly named “ARTEMIS”, the journal is published quarterly (March, June, September, December) in English and publishes original peer-reviewed articles, reviews, case reports and commentaries in the fields of Gynecology, Gynecologic Oncology, Endocrinology & Reproductive Medicine and Obstetrics. Reviews will be considered for publication only if they are prepared by authors who have at least three published manuscripts in international peer reviewed journals and these studies should be cited in the review. Otherwise only invited reviews will be considered for peer review from qualified experts in the area.

The “Journal of the Turkish German Gynecological Association” is a peer reviewed journal and adheres to the highest ethical and editorial standards. The Editorial Board of the journal endorses the editorial policy statements approved by the WAME Board of Directors. The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated December 2015, www.icmje.org). The editors also adhere to the Committee on Publication Ethics (COPE) recommendations (http://publicationethics.org).

Submission of manuscripts

All manuscripts must be submitted via the self explanatory online submission system which is available through the journal’s web page at www.jtgga.org. Manuscripts submitted via any other medium will not be evaluated. During the submission please make sure to provide all requested information to prevent any possible delays in the evaluation process.

The main document and the tables, should be prepared with “Microsoft Office Word software”. Times New Roman font (size 12) should be used throughout the main document with 1.5 line spacing. The side margins of the main document should be set at 25 mm from all sides.

The figures should be submitted separately through the submission system in JPG or TIFF format. Please do not embed the figures in the main document. Make sure that the minimum resolution of each submitted figure is 300 DPI.

A cover letter and a title page should be provided with all submissions. It should be stated in the cover letter that the manuscript was not previously published in any other publication, that it is not accepted for publication in another publication and that it is not under review for possible publication elsewhere.

Before completing your submission, please make sure to check the PDF proof of your manuscript which will be generated by the manuscript submission system and make sure that all items of the submission are displayed correctly.

Authors who have any queries regarding the submission process can contact the journal’s editorial office:

Editorial Office:
Abdi İpekçi Caddesi 2/7 Nişantaşı, İstanbul / Turkey
+90 212 217 17 00
scholarone@jtgga.org

Editorial Policies:
All manuscripts will be evaluated by the editorial board for their scientific contribution, originality and content. Authors are responsible for the accuracy of the data presented in their manuscript. The journal retains the right to make appropriate changes on the grammar and language of the manuscript when needed. When suitable the manuscript will be sent to the corresponding author for revision. The manuscript, if accepted for publication, will become the property of the journal and copyright will be taken out in the name of the journal.

Full text of all articles can be downloaded at the web site of the journal www.jtgga.org

Preparation of Manuscripts

The “Journal of the Turkish German Gynecological Association” follows the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” (International Committee of Medical Journal Editors - http://www.icmje.org). Upon submission of the manuscript, authors are to indicate the type of trial/research and provide the checklist of the following guidelines when appropriate:

STROBE statement-checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/).

Human and Animal Studies

Manuscripts submitted for publication must contain a statement to the effect that all human studies have been reviewed by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards described in an appropriate version of the 1975 Declaration of Helsinki, as revised in 2000. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. Experimental animal studies should be presented with the disclosure of the appropriateness to the institutional/national/international ethical guides on care and use of laboratory animals.

Reports of animal experiments must state that the “Principles of laboratory animal care” (NIH publication No. 85-23, revised 1985) were followed, as well as specific national laws where applicable.

The editors reserve the right to reject manuscripts that do not comply with the abovementioned requirements. The author will be held responsible for false statements or for failure to fulfill the above mentioned requirements.

In a cover letter the authors should state if any of the material in the manuscript is submitted or planned for publication elsewhere in any form including electronic media. The cover letter must contain address, telephone, fax and the e-mail address of the corresponding author.

Conflict of Interest

Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. They should also state that they have had full control of all primary data and that they agree to allow the Journal to review their data if requested. Therefore manuscripts should be accompanied by the “Conflict of Interest Disclosure Form.” The form can be obtained from the journal webpage (www.jtgga.org).

Copyright

The author(s) transfer(s) the copyright to their article to the Journal of the Turkish German Gynecological Association if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form). It also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Submissions must be accompanied by the “Copyright Transfer Statement”. The form is available for download on the journal’s manuscript submission and
Title Page

A separate title page should be submitted with all submissions and should include the title of the article, name(s), affiliations and major degree(s) of the author(s) and source(s) of the work or study, a short title (running head) of no more than 50 characters. The name, address, telephone (including the mobile phone number) and fax numbers and e-mail address of the corresponding author should be listed on the title page.

Abstract

All manuscripts should be accompanied by an abstract. A structured abstract is required with original articles and it should include the following subheadings: Objective, Material and Methods, Results and Conclusion. A structured abstract is not required with review articles and case reports. The abstract should be limited to 250 words for original articles and review articles and 150 words for case reports.

Keywords

Below the abstract provide 3 to 5 Keywords. Abbreviations should not be used as Keywords. Keywords should be picked from the Medical Subject Headings (MeSH) list (www.nlm.nih.gov/mesh/MBrowser.html).

Original articles should have the following sections.

Introduction

State concisely the purpose and rationale for the study and cite only the most pertinent references as background.

Material and Methods

Describe the plan, the patients, experimental animals, material and controls, the methods and procedures utilized, and the statistical method(s) employed. In addition to the normal peer review procedure, all randomized controlled trials (RCTs) submitted to the journal are sent to members of a team of professional medical statisticians for reviewing.

Address “Institutional Review Board” issues as stated above. State the generic names of the drugs with the name and country of the manufacturers. Provide information on informed consent and ethics committee approval.

Results

Present the detailed findings supported with statistical methods. Figures and tables should supplement, not duplicate the text; presentation of data in either figures or gray-scale images must be at minimum 300 DPI resolution. Figures should be submitted in “*.tif”, “*.jpg” or “*.pdf” format and should not be embedded in the main document. Tables and figures consecutively in the order they are referred to within the main text. Each table must have a title indicating the purpose or content of the table. Do not use internal horizontal and vertical rules. Place explanatory matter in footnotes, not in the heading. Explain all abbreviations used in each table in footnotes. Each figure must have an accompanying descriptive legend defining abbreviations or symbols found in the figure. If photographs of people are used, the subjects must be unidentifiable and the subjects must have provided written permission to use the photographs. There is no charge for colour illustrations.

Units of measurement and abbreviations

Units of measurement should be in Système International (SI) units. Abbreviations should be avoided in the title. Use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used.

Revisions

Revisions will be sent to the corresponding author. Revisions must be returned as quickly as possible in order not to delay publication. Deadline for the return of revisions is 30 days. The editorial board retains the right to decline manuscripts from review if authors’ response delays beyond 30 days. All reviewers’ comments should be addressed and a revision note containing the author’s responses to the reviewers’ comments should be submitted with the revised manuscript. An annotated copy of the main document should be submitted with revisions. The Editors have the right to rewrite or retract the paper from the scientific literature in case of proven allegations of misconduct.

Accepted articles

Accepted articles are provided with a DOI number and published as ahead of print articles before they are included in their scheduled issue.

ORIGINAL INVESTIGATIONS

60 The impact of a simulation-based training lab on outcomes of hysterectomy
Mehmet Reşit Asoğlu, Tamar Achjian, Oğuz Akbilgiç, Mostafa A. Borahay, Gökhan S. Kılıç; Texas, Tennessee, USA

65 Effect of chorionic villus sampling on the occurrence of preeclampsia and gestational hypertension: An updated systematic review and meta-analysis
Ahmet Başaran, Mustafa Başaran, Betül Topatan, James N. Martin Jr.; Konya, Turkey, Mississippi, USA

73 Primary peritoneal cancer in BRCA carriers after prophylactic bilateral salpingo-oophorectomy
Christos Iavazzo, Ioannis D. Gkegkes, Nikolaos Vrachnis; Manchester, United Kingdom; Athens, Greece

77 BRCA1 and BRCA2 sequence variations detected with next-generation sequencing in patients with premature ovarian insufficiency
Nafiye Karakaş Yılmaz, Peren Hatice Karagöz, Yunus Kasm Terzi, İnci Kahyaoğlu, Saynur Yılmaz, Salim Erkaya, Feride İlfet Şahin; Ankara, Turkey

83 Effect of body mass index and age on in vitro fertilization in polycystic ovary syndrome
Müberra Namlı Kalem, Ziya Kalem, Turan Sarı, Can Ateş, Timur Gürgan; Ankara, Turkey

91 PGD management scheme for older females with balanced translocations: Do older females have less chance of balanced embryo transfer?
Pınar Tulay, Meral Gülümrukk, Necati Fındıklı, Mustafa Bahçeçi; Nicosia, Cyprus; Istanbul, Turkey

96 Mucinous borderline ovarian tumors: Analysis of 75 patients from a single center
Duygu Kasah Cörmert, İşın Üreyen, Alper Karakol, Tolga Taç, Osman Türmen, Reyhan Öcalan, Taner Turan, Gökhan Tükunay; Ankara, Turkey

101 Evaluation of vaginal agenesis treated with the modified McIndoe technique: A retrospective study
Oya Soylu Karapınar, Mustafa Ozkan, Ayşe Güler Okuyay, Hanife Şahin, Kenan Serdar Dolapçioğlu; Hatay, Ankara, Turkey

REVIEW

106 Application of da Vinci® Robot in simple or radical hysterectomy: Tips and tricks
Christos Iavazzo, Ioannis D. Gkegkes; Manchester, United Kingdom; Athens, Greece

CASE SERIES

110 Three-dimensional ultrasonography by means of HDlive rendering in the first trimester of pregnancy: A Pictorial review
Gabriele Tonni, Anna Pia Castiglione, Gianpaolo Grisolia, Mario Lituania, Simon Meagher, Fabricio Da Silva Costa, Edward Araujo Júnior; Emilia, Mantua, Genoa, Italy; Victoria, Melbourne, Australia; São Paulo, Brazil

120 Pessary use in pregnant women with short cervix
Tuncay Yüce, Bahar Konuralp, Erkan Kalafat, Feride Sülyemez; Ankara, Turkey

QUIZ

123 What is your diagnosis?
Ahmet Başaran, Mustafa Başaran; Konya, Turkey
It is my great pleasure to present you the second issue of Journal of the Turkish-German Gynecological Association (J Turk Ger Gynecol Assoc) in the publishing year of 2016. In this latest issue, we have included many high quality manuscripts. One of them is a meta-analysis reviewing the recent literature and updating a previous systematic review and this study investigates the potential role of chorionic villus sampling in increasing the subsequent rate of occurrence of preeclampsia and gestational hypertension. You will also read an interesting paper determining the role of BRCA1 and BRCA2 gene mutations in the etiology of premature ovarian insufficiency in a Turkish population. The presence of mutations of BRCA1 or BRCA2 genes are associated with an increase in the risk of breast, ovarian, fallopian tube and peritoneal cancers. Herein is presented another highly scientific article reviewing cases with peritoneal cancer after prophylactic bilateral salpingo-oophorectomy and discussing the possible etiology of this rare entity as well as the possible changes in the management of such patients. As usual, we have included a quiz too, which we are sure that you will enjoy solving.

With each new issue of J Turk Ger Gynecol Assoc, we are trying to further increase the quality of our content. We are glad to see that this consistency in quality has translated well into our readership numbers. Number of hits we have received on PubMed has almost doubled over the past 18 months. Thank you for your interest.

Our submission traffic is also progressing in a healthy way. Due to J Turk Ger Gynecol Assoc’s increasing international popularity and visibility, the number of international submissions we receive has almost tripled over the past 24 months and it is nice to see the quality of submissions is also rising.

Increasing submission numbers and the quality of these submissions makes our jobs as editors easier and harder at the same time. Thanks to the international support we receive from our reviewer community we can manage these submissions with ease. The average time from submission to first decision is 4 weeks for new submissions. We are planning to lower the average to 21 days within the next year. On behalf of the editorial board, I would like to thank our reviewers for their continuous support.

As you might know, we try to be as fast as possible to make the accepted manuscripts available to our readers. We publish the accepted papers within 4-6 weeks of the final decision. We will try to reduce this to 3 to 4 weeks within the next year as well.

Turkish-German Gynecological Education and Research Foundation’s 11th congress (TAJEV 2016) was recently held in Antalya, Turkey and I am glad to report that it was a success. The scientific quality was very high and the organization received great interest from the international gynecology and obstetrics society. We have had more than 1600 participants and faculty members from 12 different countries.

During the congress we had keynote lectures with the world’s most reputable speakers; Prof. Sara Brucker, Prof. Camran Nezhat, Prof. Serdar Bulun, Prof. Karl Oliver Kagan. In addition, there were two live surgeries, one from France the other from USA, with the moderation by Prof. Ceana Nezhat. I am sure that these lectures will positively contribute to the education and progress of your participants.

We have wasted no time and we have already started to work on TAJEV 2018. If you have any feedback regarding TAJEV 2016 that you would like to share with us, please do not hesitate to get in direct contact with us.

Sincerely,

Prof. Cihat Ünlü, M.D.
Editor in Chief of J Turk Ger Gynecol Assoc
President of TAJEV
