Aims and Scope

Journal of the Turkish-German Gynecological Association is the official open access publication of the Turkish-German Gynecological Education and Research Foundation and Turkish-German Gynecological Association and is published quarterly on March, June, September and December.

The target audience of Journal of the Turkish-German Gynecological Association includes gynaecologists and primary care physicians interested in gynecology practice. It publishes original work on all aspects of gynecology. The aim of Journal of the Turkish-German Gynecological Association is to publish high quality original research articles. In addition to research articles, reviews, editorials, letters to the editor and case presentations are also published.

It is an independent peer-reviewed international journal printed in English language. Manuscripts are reviewed in accordance with “double-blind peer review” process for both referees and authors.

Journal of the Turkish-German Gynecological Association is indexed in PubMed Central, EMBASE, Scopus, CINAHL, Gale/Cengage Learning, EBSO, DOAJ, ProQuest, Index Copernicus, Tübitak/Ulakbim Turkish Medical Database and Turkiye Citation Index.

Subscription Information
Journal of the Turkish-German Gynecological Association is distributed free of charge to all physicians, specialists in gynecology field. For subscription please contact Turkish-German Gynecological Education and Research Foundation at www.jtgga.org. The access to tables of contents, abstracts and full texts of all articles published since 2000 are free to all readers via the journal’s webpage. Visit the journal’s home pages for details of the aims and scope and instruction to authors.

Instructions for Authors
Instructions for authors page at the journal is available in the journal content and at www.jtgga.org.

Disclaimer
The statements and opinions contained in the articles of the Journal of the Turkish-German Gynecological Association are solely those of the individual authors and contributors not of the Turkish-German Gynecological Education and Research Foundation, Turkish-German Gynecological Association, Turkish Society of Reproductive Medicine, Editorial Board or AVES.

The journal is printed on acid-free paper.
The “Journal of the Turkish German Gynecological Association” (ISSN 1309-0359; Abbreviated as “Turk Ger Gynecol Assoc.”) is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and the Turkish-German Gynecological Association. Formerly named “ARTEMIS”, the journal is published quarterly (March, June, September, December) in English and publishes original peer-reviewed articles, reviews, case reports and commentaries in the fields of Gynecology, Gynecologic Oncology, Endocrinology & Reproductive Medicine and Obstetrics. Reviews will be considered for publication only if they are prepared by authors who have at least three published manuscripts in international peer reviewed journals and these studies should be cited in the review. Otherwise only invited reviews will be considered for peer review from qualified experts in the area.

The “Journal of the Turkish German Gynecological Association” is a peer reviewed journal and adheres to the highest ethical and editorial standards. The Editorial Board of the journal endorses the editorial policy statements approved by the WAME Board of Directors. The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated August 2013, www.icmje.org). The editors also adhere to the Committee on Publication Ethics (COPE) recommendations (http://publicationethics.org).

Submission of manuscripts
All manuscripts must be submitted via the self explanatory online submission system which is available through the journal’s web page at www.jtgga.org. Manuscripts submitted via any other medium will not be evaluated. During the submission please make sure to provide all requested information to prevent any possible delays in the evaluation process.

The main document and the tables, should be prepared with “Microsoft Office Word software”. Times New Roman font (size 12) should be used throughout the main document with 1.5 line spacing. The side margins of the main document should be set at 25 mm from all sides.

The figures should be submitted separately through the submission system in JPG of TIFF format. Please do not embed the figures in the main document. Make sure that the minimum resolution of each submitted figure is 300DPI.

A cover letter and a title page should be provided with all submissions. It should be stated in the cover letter that the manuscript was not previously published in any other publication, that it is not accepted for publication in another publication and that it is not under review for possible publication elsewhere.

Before completing your submission, please make sure to check the PDF proof of your manuscript which will be generated by the manuscript submission system and make sure that all items of the submission are displayed correctly.

Authors who have any queries regarding the submission process can contact the journal’s editorial office:
Editorial Office:
Abdi İpekçi Caddesi 2/7 Nişantaşı, Istanbul / Turkey
+90 212 217 17 00
scholarone@jtgga.org

Editorial Policies
All manuscripts will be evaluated by the editorial board for their scientific contribution, originality and content. Authors are responsible for the accuracy of the data presented in their manuscript. The journal retains the right to make appropriate changes on the grammar and language of the manuscript when needed. When suitable the manuscript will be sent to the corresponding author for revision. The manuscript, if accepted for publication, will become the property of the journal and copyright will be taken out in the name of the journal.

Full text of all articles can be downloaded at the website of the journal www.jtgga.org

Preparation of Manuscripts
The “Journal of the Turkish German Gynecological Association” follows the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” (International Committee of Medical Journal Editors - http://www.icmje.org/). Upon submission of the manuscript, authors are to indicate the type of trial/research and provide the checklist of the following guidelines when appropriate:

STROBE statement—checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/).

Human and Animal Studies
Manuscripts submitted for publication must contain a statement to the effect that all human studies have been reviewed by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards described in an appropriate version of the 1975 Declaration of Helsinki, as revised in 2000. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. Experimental animal studies should be presented with the disclosure of the appropriateness to the institutional/national/international ethical guides on care and use of laboratory animals.

Reports of animal experiments must state that the “Principles of laboratory animal care” (NIH publication No. 86-23, revised 1985) were followed, as well as specific national laws where applicable.

The editors reserve the right to reject manuscripts that do not comply with the abovementioned requirements. The author will be held responsible for false statements or for failure to fulfill the above mentioned requirements.

In a cover letter the authors should state if any of the material in the manuscript is submitted or planned for publication elsewhere in any form including electronic media. The cover letter must contain address, telephone, fax and the e-mail address of the corresponding author.

Conflict of Interest
Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. They should also state that they have had full control of all primary data and that they agree to allow the Journal to review their data if requested. Therefore manuscripts should be accompanied by the “Conflict of Interest Disclosure Form.” The form can be obtained from the journal webpage (www.jtgga.org).

Copyright
The author(s) transfer(s) the copyright to his/her article to the Journal of the Turkish German Gynecological Association effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form). It also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Submissions must be accompanied by the “Copyright Transfer Statement”. The form is available for download on the Journal’s manuscript submission and evalu-
Title Page
A separate title page should be submitted with all submissions and should include the title of the article, name(s), affiliations and major degree(s) of the author(s) and source(s) of the work or study, a short title (running head) of no more than 50 characters. The name, address, telephone (including the mobile phone number) and fax numbers and e-mail address of the corresponding author should be listed on the title page.

Abstract
All manuscripts should be accompanied by an abstract. A structured abstract is required with original articles and it should include the following subheadings: Objective, Material and Methods, Results and Conclusion. A structured abstract is not required with review articles and case reports. The abstract should be limited to 250 words for original articles and review articles and 150 words for case reports.

Key Words
Below the abstract provide 3 to 5 key words. Abbreviations should not be used as key words. Key words should be picked from the Medical Subject Headings (MeSH) list (www.nlm.nih.gov/mesh/MBrowser.html).

Original articles should have the following sections.

Introduction
State concisely the purpose and rationale for the study and cite only the most pertinent references as background.

Material and Methods
Describe the plan, the patients, experimental animals, material and controls, the methods and procedures utilized, and the statistical method(s) employed. In addition to the normal peer review procedure, all randomized controlled trials (RCTs) submitted to the journal are sent to members of a team of professional medical statisticians for reviewing.

Address “Institutional Review Board” issues as stated above. State the generic names of the drugs with the name and country of the manufacturers. Provide information on informed consent and ethics committee approval.

Results
Present the detailed findings supported with statistical methods. Figures and tables should supplement, not duplicate the text; presentation of data in either one or the other will suffice. Emphasize only your important observations; do not compare your observations with those of others. Such comparisons and comments are reserved for the discussion section.

Discussion
State the importance and significance of your findings but do not repeat the details given in the Results section. Limit your opinions to those strictly indicated by the facts in your report. Compare your finding with those of others. Provide information on the limitations of the study. No new data are to be presented in this section.

The main text of case reports should be structured with the following subheadings: Introduction, Case Presentation, Discussion.

References
Number references in Arabic numerals consecutively in the order in which they are mentioned in the text starting with number "1". Use the form of the “Uniform Requirements for Manuscript Submitted to Biomedical Journals” (http://www.amaassn.org/public/peer/wame/uniform.htm). If number of authors exceeds seven, list first 6 authors followed by et al.

Journal titles should conform to the abbreviations used in “Cumulated Index Medicus”.

Examples:
Journals:

Book chapter:

Book:

Tables and Figures
Tables should be included in the main document after the reference list. Colour figures or gray-scale images must be at minimum 300 DPI resolution. Figures should be submitted in “.tiff”, “.jpg” or “.pdf” format and should not be embedded in the main document. Tables and figures consecutively in the order they are referred to within the main text. Each table must have a title indicating the purpose or content of the table. Do not use internal horizontal and vertical rules. Place explanatory matter in footnotes, not in the heading. Explain all abbreviations used in each table in footnotes. Each figure must have an accompanying descriptive legend defining abbreviations or symbols found in the figure. If photographs of people are used, the subjects must be unidentifiable and the subjects must have provided written permission to use the photograph. There is no charge for colour illustrations.

Units of measurement and abbreviations
Units of measurement should be in Systémé International (SI) units. Abbreviations should be avoided in the title. Use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used.

Revisions
Revisions will be sent to the corresponding author. Revisions must be returned as quickly as possible in order not to delay publication. Deadline for the return of revisions is 30 days. The editorial board retains the right to decline manuscripts from review if authors’ response delays beyond 30 days. All reviewers’ comments should be addressed and a revision note containing the author’s responses to the reviewers’ comments should be submitted with the revised manuscript. An annotated copy of the main document should be submitted with revisions. The Editors have the right to retract or retrans the paper from the scientific literature in case of proven allegations of misconduct.

Accepted articles
Accepted articles are provided with a DOI number and published as ahead of print articles before they are included in their scheduled issue.

Contents

**Original Investigations**

1  Role of spiral artery Doppler to screen type 2 endometrial cancer cases  
   Soner Düzgüner, Mehmet Burak Özkan, Tuncay Köçak, Enis Özkaya, Fadil Kara, Ipek Nur Balin, Vakkas Korkmaz, 
   Mehmet Fatih Karsh, Burak Gültekin; Ankara, Turkey

6  USG guided FNAC of ovarian mass lesions: A cyto-histopathological correlation, with emphasis on its role in  
   pre-operative management guidelines  
   Sailesh Ray, Mimi Gangopadhyay, Arghya Bardopadhyay, Kaushik Majumdar, Nilanjana Chaudhury; Darjeeling, India

13  Expression of P-cadherin (cadherin-3) and E-selectin in the villous trophoblast of first trimester human placenta  
    Hüseyin Sahin, Yaşar Kemal Akpak, Uluğ Berber, İsmet Gün, Dilaver Demirel, Ali Rüştü Ergür; İstanbul, Ankara, Turkey

18  Antenatal diagnosis and outcome of agenesis of corpus callosum: A retrospective review of 33 cases  
    Özgür Özyünci, Aslıhan Yazıcıoğlu, Mert Turğal; Ankara, Turkey

22  Incidence of gestational trophoblastic disease in Tokat province, Turkey  
    Bülent Çakmak, Muhammet Toprak, Mehmet Can Nacar, Reşid Doğan Köseoğlu, Nihan Güneri; Tokat, Turkey

25  A financial analysis of operating room charges for robot-assisted gynaecologic surgery:  
    Efficiency strategies in the operating room for reducing the costs  
    Burak Zeybek, Tufan Öge, Cemil Hakan Koç, Mostafa A. Borahay, Gökhan Sani Kılıç; İzmir, Eskişehir, İstanbul, Turkey; Galveston, USA

30  The effect of Silymarin on VEGF, VEGFR-1 and IL-1α levels in placental cultures of severe preeclamptic women  
    Mustafa Derya Kaya, Erdal Başer, Sibel Kaya, Mustafa Kernal Tokal, Feride Şahin, Esra Kuşçu, Filiz Yankı; Ankara, Turkey

36  Can maternal serum C-reactive protein levels predict successful labour induction with intravenous oxytocin  
    in term pregnancies complicated with premature rupture of the membranes? A cross-sectional study  
    Serkan Kahyaoglu, Haluk Timur, Remzi Eren, İnci Kahyaoglu, Elf Gül Yopor Eyi, Yaprak Engin-Üstün; Ankara, Sakarya, Yozgat, Turkey

41  Prediction of staging with preoperative parameters and frozen/section in patients with a preoperative  
    diagnosis of grade 1 endometrioid tumor in endometrial cancer  
    Alper Karalok, Işın Üreyen, Yıldız Reis, Özge Oktay, Taner Turan, Nurettin Boran, Dilek Bülbul, Gökhan Tulunay, 
    Mehmet Faruk Köse; Ankara, Turkey

**Review**

49  What do we know about metabolic syndrome in adolescents with PCOS?  
    Derya Akdaş Cırık, Berna Dilbaz; Ankara, Turkey

**Case Reports**

56  Integration of three-dimensional ultrasonography in the prenatal diagnosis of amniotic band syndrome:  
    A case report  
    Mert Turğal, Özgür Özyünci, Aslıhan Yazıcıoğlu, Lütfü Sabri Önderoğlu; Ankara, Turkey

60  A diagnostic dilemma of acute abdomen in pregnancy: Leiomyoma of the small intestine  
    Hüseyin Cengiz, Süheyl Yıldız, Cihan Kaya, Murat Ekin; İstanbul, Turkey

63  Two cases of successful pregnancies after hysteroscopic removal of endometrioid adenocarcinoma grade I,  
    stage IA, in young women with Lynch syndrome  
    Ingrid Marton, Hrvojka Soljacic Vranes, Vladimir Sporac, Igor Maricić, Krunoslav Kuna, Miroslav Kopjar; Zagreb, Split, Croatia

**Quiz**

67  What is your diagnosis?  
    Zehra Nişal Dolgun, Sabri Berkem Ökten, Dilek Pınar Özer, Özge Ordu, Niyazi Cenk Sayın; Edirne, Turkey
Dear colleagues,

It is my great pleasure to meet with our loyal readers again in the first issue of the Journal of the Turkish - German Gynecological Association (JTGGA) in the publishing year of 2014.

I would like to inform you that the archive of our journal starting with September 2009 issue has been indexed in PubMed Central and now available for access. The number and quality of the submitted manuscripts and citations to our articles have risen sharply. In this issue, you will find an opportunity to read many high quality manuscripts. There is no doubt that, JTGGA will increase its respectable status to a higher level in the international scientific community with our strict policy. Please do not hesitate to send your best works to our journal.

We are also proud to be announcing the 2nd International Research Awards on Obstetrics & Gynecology in this issue. All manuscripts submitted in this period have been peer-reviewed in terms of their scientific contribution, originality and content by the evaluation committee and the awards will be presented to the winners at the Opening Ceremony of the X. Turkish German Gynecology Congress on April 30th, 2014. We would like to thank all contributing authors in this period for submitting their precious studies to our journal.

This coming spring, we will be celebrating the X. Turkish German Gynecology Congress, which will be held between the dates of April 30th and May 4th, 2014 in Antalya. Our foundation which has been organizing one of the biggest congresses of Turkey for the past twenty years has worked hard to organize a unique and memorable organization at its decennial anniversary. It is always our biggest pride that the interest of the gynecology and obstetrics community in our congress is increasing steadily. I am very proud to announce that more than 500 abstracts have already been submitted for presentation at our congress in poster, oral and video presentation categories. The best three of them will be financially awarded with a total of 5,000 TL. The best abstract in Endoscopic Surgery category will also be awarded with 4,000 TL. The aim of these awards is to appreciate the prolificacy of our colleagues in research projects and to encourage especially our young colleagues for the forthcoming years.

In addition to the pre-congress courses, hands-on training sessions, satellite symposiums and round table meetings taking place in our congresses regularly; we have enriched our scientific program with live surgeries and innovative sessions. As well as our previous congresses, we continue our tradition of collaborated sessions this year with the AAGL - TAJEV Joint Session on Endoscopy and NOGGO - TAJEV Joint Session on Oncology. Several leading scholars are invited in order to share their knowledge and experiences with the participants in special themes.

Please do not forget to mark April 30th, 2014 on your calendars in order to not to miss this scientific festival.

Yours Faithfully,

Cihat Ünlü, M.D.
Editor in Chief of JTGGA
President of TAJEV
Dear Readers and Colleagues,

As you know, back in June 2013 we have announced that the Journal of Turkish-German Gynecological Association (JTGGA) would accept submissions to compete in the 2nd International Research Awards on Obstetrics & Gynecology.

Following the announcement, we were overjoyed by the interest we have received from international researchers. We have received many high quality submissions in this period. On behalf of the editorial, I would like to extend our sincere gratitude to the participants for submitting their valuable manuscripts for evaluation to win the award.

All participating manuscripts were peer-reviewed to evaluate their scientific contribution to the international literature, originality and content by external reviewers. We would also like to thank all of our reviewers whose valuable opinions guided us to choose the best among many high quality manuscripts.

The evaluation committee, formed by the editorial board of the Journal of Turkish-German Gynecological Association has reviewed every single manuscript. Unfortunately the committee could not decide on a manuscript to win the 1st place among the submissions. The winners of the 2nd and 3rd places are listed below.

2nd Place
The effect of Silymarin on VEGF, VEGFR-1 and IL-1α levels in placental cultures of severe preeclamptic women
Mustafa Derda Kaya, Eralp Başer, Sibel Kay, Mustafa Kemal Takal, Feride Şahin, Esra Kuşçu, Filiz Yanık
Department of Obstetrics and Gynecology, Başkent University Faculty of Medicine, Ankara, Turkey

3rd Place
The role of TWIST, SERPINB5 and SERPIN1 genes for leiomyoma uteri
Mehmet Süha Bostancı, Merih Bayram, Murat Bakacak, Özge Kızılkale, Ruşett Attar, Gazi Yıldırım, Ümit Emin Bağrıaçık, Baran Celtemen
Department of Obstetrics and Gynecology, Sakarya University Faculty of Medicine, Sakarya, Turkey
Department of Obstetrics and Gynecology, Gazi University Faculty of Medicine, Ankara, Turkey
Department of Obstetrics and Gynecology, Kahramanmaraş Sütçü İmam University Faculty of Medicine, Kahramanmaraş, Turkey
Department of Obstetrics and Gynecology, Yeditepe University Faculty of Medicine, İstanbul, Turkey

On behalf of the editorial board of the Journal of Turkish-German Gynecological Association and the Turkish-German Gynecological Education and Research Foundation I would like to congratulate the winners.

The awards of the winners will be presented to them during the opening ceremony of the X. Turkish German Gynecology Congress which will be held on April 30th, 2014 in Antalya, Turkey.

Yours Faithfully,

Cihat Ünlü, M.D.
Editor in Chief of JTGGA
President of TAJEV
