Journal of the Turkish-German Gynecological Association is an official journal of the Turkish-German Gynecological Education and Research Foundation, Turkish-German Gynecological Association and the Turkish Society of Reproductive Medicine and is published quarterly on March, June, September and November.

The target audience of Journal of the Turkish-German Gynecological Association includes gynaecologists and primary care physicians interested in gynecology practice. It publishes original work on all aspects of gynecology. The aim of Journal of the Turkish-German Gynecological Association is to publish high quality original research articles. In addition to research articles, reviews, editorials, letters to the editor and case presentations are also published.

It is an independent peer-reviewed international journal printed in English language. Manuscripts are refereed in accordance with "double-blind peer reviewed" process for both referees and authors.

Papers written in English language are particularly supported and encouraged.

Journal of the Turkish-German Gynecological Association is indexed in EMBASE, Scopus, CINAHL, Gale/Cengage Learning, EBSCO, DOAJ, ProQuest, Index Copernicus, Tübitak/Ulakbim Turkish Medical Database and Turkiye Citation Index.

Subscription Information
Journal of the Turkish-German Gynecological Association is delivered free of charge to all physicians, specialists in gynecology field. Instructions for Authors

The “Journal of the Turkish German Gynecological Association” (ISSN 1309-6089; Abbreviated as “J Turkish German Gynecol Assoc”) is the official journal of the Turkish German Gynecological Association and the Turkish Society of Reproductive Medicine. Formerly named “ARTEMIS” is printed quarterly (March, June, September, December) and publishes original peer-reviewed articles, reviews, case reports, brief reports and commentaries in the fields of Gynecology, Gynecologic Oncology, Endocrinology & Reproductive Medicine and Obstetrics in English. The title, abstract, and key words (according to medical subject headings) are provided in English at the beginning of each article. Reviews will be considered for publication only if they are written by authors who have at least three published manuscripts in the international peer reviewed journals and these studies should be cited in the review. Otherwise limited reviews will be considered for peer review from qualified experts in the area.

The “Journal of the Turkish German Gynecological Association” is a peer reviewed journal and adheres to the highest ethical and editorial standards. The Editorial Board of the journal endorses the editorial policy statements approved by the WAME Board of Directors. The journal is in compliance with the uniform requirements for manuscripts submitted to biomedical journals published by the International Committee of Medical Journal Editors (NEJM 1997; 335: 383-385; updated 2001). The editors also adhere to the Committee on Publications Ethics (COPE) recommendations (http://publicationethics.org).

The manuscript, figures and tables, prepared under “Microsoft Office Word program”, double spaced on one side of A4 sized paper, with margins of at least 25 mm should be submitted. Original articles should not exceed 15 pages including the tables and figures. Brief reports should not exceed 5 pages including one figure and/or maximum two tables. As the journals policy only online submissions of manuscripts are accepted after May 2005.

Online Submissions
Only online submissions are accepted for quick peer-review and to prevent delay in publication. Manuscripts should be prepared as word document (*.doc) or rich text format (*.rtf). After logging on to the web site www.jtgga.org double click the “submit an article” icon. All corresponding authors should be provided a password and an username after providing the information needed. After logging on the article submission system with your own password and username please read carefully the directions of the system to provide all needed information in order not to delay the processing of the manuscript. Attach the manuscript, all figures, tables and additional documents. Please also attach the cover letter with “Assignement of Copyright and Financial Disclosure” forms, checklist of below mentioned guidelines according to the type of the manuscript.

Editorial Policies
All manuscripts will be evaluated by the scientific board for their scientific contribution, originality and content. Authors are responsible for the accuracy of the data. The journal retains the right to make appropriate changes on the grammar and language of the manuscript. When suitable the manuscript will be sent to the corresponding author for revision. The manuscript, when published, will become the property of the journal and copyright will be taken out in the name of the journal. Articles previously published in any language will not be considered for publication in the journal. Authors can not submit the manuscript for publication in another journal. All changes in the manuscript will be made after obtaining written permission of the author and the publisher. Full text of all articles can be downloaded at the web site of the journal www.jtgga.org.

Preparation of Manuscripts
The “Journal of the Turkish German Gynecological Association” follows the “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” (International Committee of Medical Journal Editors: Br Med J 1988; 296: 401-5). Upon submission of the manuscript, authors are to indicate the type of trial/research and provide the checklist of the following guidelines when appropriate:

- CONSORT statement for randomized controlled trials (Moher D, SchulzKF; Altman D, for the CONSORT Group. The CONSORT statement revised recommendations for improving the quality of reports of parallel group randomized trials. JAMA 2001; 285: 1987-91) (http://www.consort-statement.org/)

Human and Animal Studies
Manuscripts submitted for publication must contain a statement to the effect that all human studies have been reviewed by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards described in an appropriate version of the 1975 Declaration of Helsinki, as revised in 2000. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. Experimental animal studies should be presented with the disclosure of the appropriateness to the institutional/national/international ethical guides on care and use of laboratory animals.

Reports of animal experiments must state that the “Principles of laboratory animal care” (NIH publication No. 86-23, revised 1985) were followed, as well as specific national laws where applicable.

The editors reserve the right to reject manuscripts that do not comply with the abovementioned requirements. The author will be held responsible for false statements or for failure to fulfill the abovementioned requirements.

In a cover letter the authors should state if any of the material in the manuscript is submitted or planned for publication elsewhere in any form including electronic media. The cover letter must contain address, telephone, fax and the e-mail address of the corresponding author.

Conflict of Interest
Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. They should also state that they have had full control of all
primary data and that they agree to allow the Journal to review their data if requested. Therefore, manuscripts should be accompanied by the “Conflict of Interest Disclosure Form.” The form can be obtained from the journal webpage (www.jtgga.org).

Copyright
The author(s) transfer(s) the copyright to their article to the Journal of the Turkish German Gynecological Association effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form); it also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Manuscripts must be accompanied by the “Copyright Transfer Statement”.

Manuscript Specifications
All manuscripts must include the following section headings; title, abstract, introduction, methods, results and discussion

Title Page
The first page should include the title of the article, name(s), affiliations and major degree(s) of the author(s) and source(s) of the work or study, a short title (running head) of no more than 50 characters. The name, address, telephone and fax numbers and e-mail address of the corresponding author should be listed on the title page.

Abstract
All manuscripts should be accompanied by a structured abstract in Turkish. The structured abstract(s) should present the study objective, material and method, results and conclusions. Word limitation is 250 words for original articles and 150 words for brief reports and abstracts. Authors should use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used. Units of measurement and abbreviations should be in Systéme International (SI) units. Abbreviations should be avoided in the title. Use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used.

Tables and Figures
Tables and figures should be prepared on separate pages. They should be numbered in Arabic numerals. Each table must have a title indicating the purpose or content of each table. Be sure that each table is cited in the text. Do not use internal horizontal and vertical rules. Place explanatory matter in footnotes, not in the heading. Explain in footnotes all abbreviations used in each table. Each figure must have an accompanying legend defining abbreviations or symbols found in the figure. If photographs of people are used, the subjects must be unidentifiable or the subjects must have provided written permission to use the photograph. There is no charge for color illustrations.

151 What is your diagnosis?  
Cemil Yaman, Helmut Huber, Dietmar Haas, Peter Oppelt, Linz, Austria
Dear Colleagues,

Here presented the second issue of the thirteenth volume of our journal - JTGGA (Journal of the Turkish - German Gynecological Association).

In this issue, you will find very interesting and scientifically satisfying articles. One of them is a review about urinary dysfunctions after tight midurethral sling operations. Another interesting article is a research finding out that urogynecology related urodynamy is not very useful in the preliminary period for the women with overactive bladder symptoms. Besides, an article about the increase of total and lipid-bound sialic acid levels with cardiovascular risk factor in the women with PCOS will draw your attention. Other interesting articles are about “The effect of serum and follicular leptin levels in In Vitro Fertilization”, “The conflict on pre-post operative endometrial cancer diagnosis” and “The relation of preterm labor with angiogenesis and VEGF”.

I would like to remind my young colleagues that our journal is indexed by many internationally accepted databases such as SİC, Tübitak/Ulakbim Turkish Medical Index, Turkish Citation Index, EBSCO host, SCOPUS, Excerpta Medica (EMBASE), DOAJ database, Gale/Cengage Learning, ProQuest, CINAHL and Index Copernicus. It will be our great pleasure to receive your qualified research studies to be published in a peer-reviewed and internationally indexed journal which will be very important in the many exams you will face. You can also contact our editorial team directly if you would like to be a reviewer and be actively involved in the evaluation process of our journal.

Dear young colleagues and assistants,

One of the products of the scientific research is the publication. A scientific experimentation is not complete unless published, even if it is very brilliant. As Gerard Piel says, “Without Publication, Science is Dead”. Scientific researcher shall not only make science but also shall write it. Most of the scientists is unfortunately not also a good “author”. My suggestion for you is to have a glance at the spelling rules of our journal and the printed or published sources about your topic before writing a good article. Please also do not hesitate to ask for assistance to more experienced instructors or teachers. Besides, the editors of our journal Assoc. Prof. Eray Çalışkan and Assoc. Prof. Gazi Yıldırım will be pleased to assist you about these issues. I look forward to seeing your qualified research studies and articles in our journal.

Except the attractive articles and case studies, you will find a quiz in this issue at the tear-away pages. Please read our journal carefully, fill and send us your answers in order to take advantage of the Turkish Medical Association Accreditation Points.

I would also like to inform you about the fourth Social Responsibility Project of our foundation - Turkish German Gynecological Education and Research Foundation (TAJEV) which will be held on June 7-8, 2012, in Rize. The project is organized in four steps traditionally; public awareness meeting with participation of the locals, the scientific meeting with participation of health professionals, performing of the advanced operations and medical examination / screening to local women, and finally a medical device donation to the local hospital. Sessions directed to raise the public awareness of the people will include topics such as the pathway to be followed through pregnancy, the health of the baby and mother, family planning and reproductive health, prevention methods from genital and breast cancers and treatment of infertility. We believe our project will succeed even if we help only one woman to become more conscious about herself and her baby.

I sincerely wish the second issue of this year will contribute the valuable medical society and Turkish Gynecology and Obstetrics Science.

Best regards,

Prof. Dr. Cihat Ünlü
Editor in Chief of the JTGGA
President of TAJEV
