Aybak Eşki et al.

A Rare Case of HNPP in Childhood
Seda Kammaz et al.

Plastic Bronchitis Following Fontan Procedure
Eser Doğan et al.
The Journal of Pediatric Research is a peer-reviewed, open access journal, which publishes original research articles, invited review articles, clinical reports and case reports in all areas of pediatric research. The journal publishes original research and review articles, which summarize recent developments about a particular subject based on standards of excellence and expert review and case reports. Target audience includes specialists in general pediatrics and pediatric subspecialties (Emergency Medicine, Allergy and Immunology, Endocrinology, Gastroenterology, Hepatology and Nutrition, Genetics, Cardiology, Hematology-Oncology, Infectious Diseases, Metabolism, Nephrology, Neurology, Rheumatology, Pulmonology, Social Pediatrics, Newborn, Critical Care Medicine, Ethics and Health Service Research), as well as relevant specialties such as Pediatric Surgery, Child and Adolescent Psychiatry, Pedodontics, Pediatric Nursing and Family Physicians. The web page of The Journal of Pediatric Research is http://www.jpedres.org/.

The journal’s editorial policies are based on “ICMJE Recommendations” (2016, http://www.icmje.org/) rules. Statistics Editor evaluates research articles and systematic reviews/meta-analyses for appropriateness of data presentation and correctness of statistical analyses. All submitted manuscripts are peer reviewed which take on average 6 weeks. Following acceptance of the submission, all authors are required to see and approve the final version of the manuscript and be willing to take responsibility for the entire manuscript. It is strictly expected that submitted manuscripts have not been published elsewhere or even being submitted by another publication. Studies performed on human material disclaimer should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

Introductions to Authors
Introductions for authors are published in the journal and on the web page www.jpedres.org

Material Disclaimer
The author(s) is (are) responsible from the articles published in the The Journal of Pediatric Research. The editor, editorial board and publisher do not accept any responsibility for the articles.

Subscription Information
Subscription for The Journal of Pediatric Research please contact Galenos Yayinevi (Publishing House).
Subscribers who have not reached the hard copy of the journal within the period should apply to Galenos Publishing House. All issues of the journal with the full texts can be accessed from the journal’s address www.jpedres.org.

Cover Photo
Authors are encouraged to send thought-provoking photos which particularly focuses on child theme to be published on the cover page of The Journal of Pediatric Research. Appropriate photos will be published. Photos must send to ozgur.cogulu@ege.edu.tr.

The journal is printed on acid-free paper.
Instructions to Authors

The Journal of Pediatric Research is an independent international journal based on double-blind peer-review principles. The journal consists of elected experts of the Journal and if necessary, selected from national and international authorities. The Editor-in-Chief, Associate Editors, biostatistics expert and English language consultant may make minor corrections to accepted manuscripts that do not change the main text of the paper.

In case of any suspicion or claim regarding scientific shortcomings or ethical infringement, the Journal reserves the right to submit the manuscript to the supporting institutions or other authorities for investigation. The Journal accepts the responsibility of initiating action but does not undertake any responsibility for an actual investigation or any power of decision.

Preparation of research articles, systematic reviews and meta-analyses must comply with study design guidelines:

GENERAL GUIDELINES

Manuscripts can only be submitted electronically through the Journal Agent website https://www.journalagent.com/jpr/ after creating an account. This system allows online submission and review.

The manuscripts are archived according to Web of Science-Emerging Sources Citation Index (ESCI), Directory of Open Access Journals (DOAJ), EBSCO, CINAHL Complete Database, ProQuest, Index Copernicus, Tübiatik/Ulakbim TR Index, TurkMedine and Türkiye Citation Index.
Instructions to Authors

The ORCID (Open Researcher and Contributor ID) number of the correspondence author should be provided while sending the manuscript. A free account can be created at http://orcid.org.

Format: Unique research papers cover clinical research, observational studies, novel techniques, and experimental and laboratory studies. Unique research papers shall consist of a heading, abstract, keywords related to the main topic of the paper, introduction, materials and methods, results, discussion, acknowledgments, bibliography, tables and figures. Manuscripts should be prepared using 12 pt “Times New Roman” and 1.5 line spacing. The text shall not exceed 2500 words. Case reports must contain rare cases or those that are unique in diagnosis and treatment, those which contribute to current knowledge and provide educational information, along with the introduction, case reporting and discussion sections. The whole text must not exceed 1500 words. Reviews are texts in which a current subject is examined independently, with reference to scientific literature. The whole text must not exceed 18 A4 paper sheets. Letters to the Editor must be manuscripts, which do not exceed 1000 words, with reference to scientific literature, and those written in response to issued literature or those, which include development of the field of pediatrics. These manuscripts do not contain an abstract. The number of references is limited to 5.

Abbreviations: Abbreviations should be defined at first mention and used consistently thereafter. Internationally accepted abbreviations should be used; refer to scientific writing guides as necessary.

Cover letter: The cover letter should include statements about manuscript type, single-journal submission affirmation, conflict of interest statement, sources of outside funding, equipment (if applicable), approval of language for articles in English and approval of statistical analysis for original research articles.

REFERENCES

Authors are solely responsible for the accuracy of all references.

In-text citations: References shall be listed as the below formats on a separate page according to their sequence within the text and referred to within the text in parentheses.

Presentations presented in congresses, unpublished manuscripts, theses, Internet addresses, and personal interviews or experiences should not be indicated as references. If such references are used, they should be indicated in parentheses at the end of the relevant sentence in the text, without reference number and written in full, in order to clarify their nature.

References section: All author names shall be stated within all references. References shall be listed as the below formats on a separate page according to their sequence within the text and referred to within the text in parentheses. However, in studies where author numbers exceed 6, names of the first 3 authors shall be stated; “et al.” additions shall be made to the list of authors in English references, respectively. The titles of journals should be abbreviated according to the style used in the Index Medicus.

Reference Format

Journal: Last name(s) of the author(s) and initials, article title, publication title and its original abbreviation, publication date, volume, the inclusive page numbers.

Book: Last name(s) of the author(s) and initials, book title, edition, place of publication, date of publication and inclusive page numbers of the extract cited.

Book Chapter: Last name(s) of the author(s) and initials, chapter title, book editors, book title, edition, place of publication, date of publication and inclusive page numbers of the cited piece.

TABLES, GRAPHICS, FIGURES, AND IMAGES

All visual materials together with their legends should be located on separate pages that follow the main text. Original documents such as films, ECG records must not be delivered. All cost related to colored printouts shall be covered by the authors’ own expenses.

Images: Images (pictures) should be numbered and include a brief title. Permission to reproduce pictures that were published elsewhere must be included. All pictures should be of the highest quality possible, in JPEG format, and at a minimum resolution of 300 dpi.

Tables, Graphics, Figures: All tables, graphics or figures should be enumerated according to their sequence within the text and a brief descriptive caption should be written. Tables shall be numbered by Roman numerals (I, II) according to their sequence, and shall include a heading. Figures shall be numbered by Arabic numerals (1, 2) according to their sequence. Any abbreviations used should be defined in the accompanying legend. Tables in particular should be explanatory and facilitate readers’ understanding of the manuscript, and should not repeat data presented in the main text. A maximum of 2 figures or photographs shall be added to case reports.

BIOSTATISTICS

To ensure controllability of the research findings, the study design, study sample, and the methodological approaches and applications should be explained and their sources should be presented.

The “p” value defined as the limit of significance along with appropriate indicators of measurement error and uncertainty (confidence interval, etc.) should be specified. Statistical terms, abbreviations and symbols used in the article should be described and the software used should be defined. Statistical terminology (random, significant, correlation, etc.) should not be used in non-statistical contexts.

All results of data and analysis should be presented in the Results section as tables, figures and graphics; biostatistical methods used and application details should be presented in the Materials and Methods section or under a separate title.

MANUSCRIPT TYPES

Original Articles

Unique research papers cover clinical research, observational studies, novel techniques, and experimental and laboratory studies. Unique research papers shall consist of a heading, abstract, keywords related to the main topic of the paper, introduction, materials and methods, results, discussion, acknowledgments, bibliography, tables and figures. The text shall not exceed 2500 words. Case reports must contain rare cases or those that are unique in diagnosis and treatment, those which contribute to current knowledge and provide educational information, along with the introduction, case reporting and discussion sections. The whole text must not exceed 1500 words. Reviews are texts in which a current subject is examined independently, with reference to scientific literature. The whole text must not exceed 18 A4 paper sheets. Letters to the Editor must be manuscripts, which do not exceed 1000 words, with reference to scientific literature, and those written in response to issued literature.
Instructions to Authors

or those, which include development in the field of pediatrics. These manuscripts do not contain an abstract. The number of references is limited to 5.

Title Page: This page should include the title of the manuscript, short title, name(s) of the authors and author information. The following descriptions should be stated in the given order:
1. Title of the manuscript (English), as concise and explanatory as possible, including no abbreviations, up to 135 characters
2. Short title (English), up to 60 characters
3. Name(s) and surname(s) of the author(s) (without abbreviations and academic titles) and affiliations
4. Name, address, e-mail, phone and fax number of the corresponding author
5. The place and date of scientific meeting in which the manuscript was presented and its abstract published in the abstract book, if applicable

Abstract: A summary of the manuscript should be written in English. References should not be cited in the abstract. Use of abbreviations should be avoided as much as possible; if any abbreviations are used, they must be taken into consideration independently of the abbreviations used in the text. For original articles, the structured abstract should include the following subheadings:
Aim: The aim of the study should be clearly stated.
Materials and Methods: The study and standard criteria used should be defined; it should also be indicated whether the study is randomized or not, whether it is retrospective or prospective, and the statistical methods applied should be indicated, if applicable.
Results: The detailed results of the study should be given and the statistical significance level should be indicated.
Conclusion: Should summarize the results of the study, the clinical applicability of the results should be defined, and the favorable and unfavorable aspects should be declared.
Keywords: A list of minimum 3, but no more than 5 key words must follow the abstract. Key words should be consistent with “Medical Subject Headings (MeSH)” (www.nlm.nih.gov/mesh/MBrowser.html).

Original research articles should have the following sections:
Introduction: Should consist of a brief explanation of the topic and indicate the objective of the study, supported by information from the literature.
Materials and Methods: The study plan should be clearly described, indicating whether the study is randomized or not, whether it is retrospective or prospective, the number of trials, the characteristics, and the statistical methods used.
Results: The results of the study should be stated, with tables/figures given in numerical order; the results should be evaluated according to the statistical analysis methods applied. See General Guidelines for details about the preparation of visual material.
Discussion: The study results should be discussed in terms of their favorable and unfavorable aspects and they should be compared with the literature. The conclusion of the study should be highlighted.
Study Limitations: Limitations of the study should be discussed. In addition, an evaluation of the implications of the obtained findings/results for future research should be outlined.

Conclusion: The conclusion of the study should be highlighted.
Acknowledgements: Any technical or financial support or editorial contributions (statistical analysis, English evaluation) towards the study should appear at the end of the article.
References: Authors are responsible for the accuracy of the references. See General Guidelines for details about the usage and formatting required.

Case Reports
Case reports should present cases which are rarely seen, feature novelty in diagnosis and treatment, and contribute to our current knowledge. The first page should include the title in English, an unstructured summary not exceeding 50 words, and key words. The main text should consist of introduction, case report, discussion and references. The entire text should not exceed 1500 words (A4, formatted as specified above). A maximum of 10 references shall be used in case reports.

Review Articles
Review articles can address any aspect of clinical or laboratory pediatrics. Review articles must provide critical analyses of contemporary evidence and provide directions for future research. The Journal only accepts and publishes invited reviews. Before sending a review, discussion with the editor is recommended.

Letters to the Editor
Letters to the Editor should be short commentaries related to current developments in pediatrics and their scientific and social aspects, or may be submitted to ask questions or offer further contributions in response to work that has been published in the Journal. Letters do not include a title or an abstract; they should not exceed 18 pages (A4, formatted as specified above).

COMMERCIALIZATION
Commercialization issues shall be discussed with the editor. It is possible to include an advertisement on the outer and inner pages of the journal.

COPYRIGHT
All copyright of the journal belongs to the related institutions.

Contents

Review

88 ▶ Pediatric Dentist-Pediatrician Cooperation in Early Diagnosis of Congenital Tooth Agenesis
   Akif Demirel, Şaziye San; Ankara, Turkey

Original Articles

94 ▶ Evaluation of Syringe Feeding Compared to Bottle Feeding for the Transition from Gavage Feeding to Oral Feeding in Preterm Infants
   Birgül Say, Mehmet Büyüktiryaki, Nilüfer Okur, Gülsüm Kadoğlu Şimşek, Fuat Emre Canpolat, Nurdan Uraş, Şerife Suna Oğuz; Kocaeli, Ankara, Diyarbakır, Turkey

99 ▶ Can Serial Measurement Enhance the Diagnostic Value of Procalcitonin as a Marker of Gram-negative Bacteremia in Children with Acute Leukemia?
   Zümruş Şahbudak Bal, Gülinanı Ercan, Deniz Yılmaz Karapınar; İzmir, Turkey

104 ▶ Can Temporomandibular Joint Disorders Be Diagnosed Beforehand by Assessment of Postural Irregularities?
   Canan Dağ, Akif Demirel, Nurhan Özalp; Ankara, Turkey

110 ▶ Visceral Leishmaniasis in Children in Southern Turkey: Evaluation of Clinical and Laboratory Findings and Liposomal Amphotericin B Treatment
   Barbaros Şahin Karagün, Özlem Özgür, İlgen Şaşmaz, Bülent Antmen, Emine Kocabaş, Emre Alhan; Adana, Turkey

115 ▶ Pediatric Liver Transplantation Outcomes for Metabolic and Non-metabolic Diseases in Turkey: A Single Center Experience
   Miray Karakoyun, Ebru Canda, Sırrım Kızılcan, Orkan Ergün, Murat Kılıç, Funda Çetin, Sema Aydoğan; İzmir, Turkey

121 ▶ Evaluation of Cardiovascular Involvement and Cytokine Levels in Patients with Mucopolysaccharidosis
   Ebru Canda, Melis Köse, Mehtap Kağıcı, Meral Dondurmacı, Sema Kaikan Uçar, Eser Sözen, Reşit Ertem Levent, Mahmut Çöker; İzmir, Turkey

128 ▶ Sleep Characteristics of Pediatric Burn Patients
   Esra Arıda Arıkan Akgül, Hatice Yıldırım San; İzmir, Turkey

135 ▶ Prevalence of Tonsillar Actinomycosis in Tonsillectomy Specimens; Clinical Importance and Management
   Naeimeh Daneshmandan, Mohamadrebram Yarmohammadi, Poopak Izadi; Tehran, Iran

141 ▶ How Parents of Children with Cancer Seek Information Through Online Communities: A Netnography Study
   Canan Sümayra Gümü, Selmin Şenol; Aydın, İzmir, Turkey

148 ▶ Investigations of Microtubule-associated Protein 2 Gene Expression in Spinal Muscular Atrophy
   Gamze Bora, Ceren Sucularlı, Niko Hensel, Peter Claus, Hayat Erdem Yurter; Ankara, Turkey, Hannover, Germany

Case Reports

155 ▶ A Novel Mutation in Fanconi Bickel Syndrome Diagnosed in the Neonatal Period
   Şükran Keskin Gözmen, Koymet Çelik, Şebnem Çalkavur, Erkin Serdaroğlu; İzmir, Turkey
Contents

158 ▶ Intrapulmonary Sequestration in a 2-month-old Baby Treated Successfully by a Combination of Embolization and Surgical Resection
   Aykut Eşki, Gökçen Kartal Öztürk, Celal Çınar, Hakki Ata Erdener, Emre Divarci, Timur Meşe, Hüseyin Hüdaver Alper, Deniz Nart, Figen Gülen, Esen Demir; İzmir, Turkey

163 ▶ Hereditary Neuropathy with Liability to Pressure Palsy: A Case Diagnosed with a Quick Multiplex Ligation-dependent Probe Amplification Test
   Seda Kanmaz, Erdem Şimşek, Hepsen Mine Serin, Murat Kadri Erdögan, Sanem Yılmaz, Gül Aktan, Hasan Tekgül, Sarenur Gökben; İzmir, Turkey

166 ▶ Plastic Bronchitis Following Fontan Procedure: A Case Report
   Eser Doğan, Derya Aydın, Zülal Ülger, Ertürk Levent; İzmir, Turkey
