Aims and Scope

Journal of the Turkish-German Gynecological Association is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and Turkish-German Gynecological Association and is published quarterly on March, June, September and December.

The target audience of Journal of the Turkish-German Gynecological Association includes gynaecologists and primary care physicians interested in gynecology practice. It publishes original work on all aspects of gynecology. The aim of Journal of the Turkish-German Gynecological Association is to publish high quality original research articles. In addition to research articles, reviews, editorials, letters to the editor and case presentations are also published.

It is an independent peer-reviewed international journal printed in English language. Manuscripts are reviewed in accordance with “double-blind peer review” process for both referees and authors.

Journal of the Turkish-German Gynecological Association is indexed in PubMed Central, EMBASE, Scopus, CINAHL, Gale/Cengage Learning, EBSCO, DOAJ, ProQuest, Index Copernicus, TÜBİTAK ULAKBİM TR Index and Turkiye Citation Index.

Subscription Information
Journal of the Turkish-German Gynecological Association is distributed free of charge to all physicians, specialists in gynecology field. For subscription please contact Turkish-German Gynecological Education and Research Foundation at www.jtgga.org. The access to tables of contents, abstracts and full texts of all articles published since 2000 are free to all readers via the journal’s webpage. Visit the journal’s home pages for details of the aims and scope and instruction to authors.

Instructions for Authors
Instructions for authors page at the journal is available in the journal content and at www.jtgga.org.

Disclaimer
The statements and opinions contained in the articles of the Journal of the Turkish-German Gynecological Association are solely those of the individual authors and contributors not of the Turkish-German Gynecological Education and Research Foundation, Turkish-German Gynecological Association, Turkish Society of Reproductive Medicine, Editorial Board or AVES.

The journal is printed on acid-free paper.
The “Journal of the Turkish German Gynecological Association” (ISSN 1309-0399; Abbreviated as “J Turk Ger Gynecol Assoc”) is the official, open access publication of the Turkish-German Gynecological Education and Research Foundation and the Turkish-German Gynecological Association. Formerly named “ARTEMIS”, the journal is published quarterly (March, June, September, December) in English and publishes original peer-reviewed articles, reviews, case reports and commentaries in the fields of Gynecology, Gynecologic Oncology, Endocrinology & Reproductive Medicine, and Obstetrics. Reviews will be considered for publication only if they are prepared by authors who have at least three published manuscripts in international peer reviewed journals and these studies should be cited in the review. Otherwise, only invited reviews will be considered for peer review from qualified experts in the area.

The “Journal of the Turkish German Gynecological Association” is a peer-reviewed journal and adheres to the highest ethical and editorial standards. The Editorial Board of the journal endorses the editorial policy statements approved by the WAME Board of Directors. The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated December 2014, www.icmje.org). The editors also adhere to the Committee on Publications Ethics (COPE) recommendations (http://publicationethics.org).

Submission of manuscripts
All manuscripts must be submitted via the self-explanatory online submission system which is available through the journal’s web page at www.jtggga.org. Manuscripts submitted via any other medium will not be evaluated. During the submission please make sure to provide all requested information to prevent any possible delays in the evaluation process.

The main document and the tables, should be prepared with “Microsoft Office Word software”. Times New Roman font (size 12) should be used throughout the main document with 1.5 line spacing. The side margins of the main document should be set at 25 mm from all sides.

The figures should be submitted separately through the submission system in JPG, .TIFF or .PDF format. Please do not embed the figures in the main document. Make sure that the minimum resolution of each submitted figure is 300 DPI.

A cover letter and a title page should be provided with all submissions. It should be stated in the cover letter that the manuscript was not previously published in any other publication, that it is not accepted for publication in another publication and that it is not under review for possible publication elsewhere.

Before completing your submission, please make sure to check the PDF proof of your manuscript which will be generated by the manuscript submission system and make sure that all items of the submission are displayed correctly.

Authors who have any queries regarding the submission process can contact the journal’s editorial office:
Editorial Office:
Abdi İpekçi Caddesi 2/7 Nişantaşı, İstanbul / Turkey

scholarone@jtggga.org

Editorial Policies
All manuscripts will be evaluated by the editorial board for their scientific contribution, originality and content. Authors are responsible for the accuracy of the data presented in their manuscript. The journal retains the right to make appropriate changes on the grammar and language of the manuscript when needed. When suitable the manuscript will be sent to the corresponding author for revision. The manuscript, if accepted for publication, will become the property of the journal and copyright will be taken out in the name of the journal.

Full text of all articles can be downloaded at the web site of the journal www.jtggga.org

Preparation of Manuscripts
The “Journal of the Turkish German Gynecological Association” follows the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” (International Committee of Medical Journal Editors - http://www.icmje.org/). Upon submission of the manuscript, authors are to indicate the type of trial/research and provide the checklist of the following guidelines when appropriate:

STROBE statement-checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/).

Human and Animal Studies
Manuscripts submitted for publication must contain a statement to the effect that all human studies have been reviewed by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards described in an appropriate version of the 1975 Declaration of Helsinki, as revised in 2000. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. Experimental animal studies should be presented with the disclosure of the appropriateness to the institutional/national/international ethical guides on care and use of laboratory animals.

Reports of animal experiments must state that the “Principles of laboratory animal care” (NIH publication No. 85-23, revised 1985) were followed, as well as specific national laws where applicable.

The editors reserve the right to reject manuscripts that do not comply with the abovementioned requirements. The author will be held responsible for false statements or for failure to fulfil the above mentioned requirements.

In a cover letter the authors should state if any of the material in the manuscript is submitted or planned for publication elsewhere in any form including electronic media. The cover letter must contain address, telephone, fax and the e-mail address of the corresponding author.

Conflict of Interest
Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. They should also state that they have had full control of all primary data and that they agree to allow the Journal to review their data if requested. Therefore manuscripts should be accompanied by the “Conflict of Interest Disclosure Form.” The form can be obtained from the journal webpage (www.jtggga.org).

Copyright
The author(s) transfer(s) the copyright to his/her article to the Journal of the Turkish German Gynecological Association effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form) and it also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Submissions must be accompanied by the “Copyright Transfer Statement”. The form is available for download on the journal’s manuscript submission and evalu-
Manuscript Specifications
Submissions should have the following parts.

Title Page
A separate title page should be submitted with all submissions and should include the title of the article, name(s), affiliations and major degree(s) of the author(s) and source(s) of the work or study, a short title (running head) of no more than 50 characters. The name, address, telephone (including the mobile phone number) and fax numbers and e-mail address of the corresponding author should be listed on the title page.

Abstract
All manuscripts should be accompanied by an abstract. A structured abstract is required with original articles and it should include the following subheadings: Objective, Material and Methods, Results and Conclusion. A structured abstract is not required with review articles and case reports. The abstract should be limited to 250 words for original articles and review articles and 150 words for case reports.

Keywords
Below the abstract provide 3 to 5 Keywords. Abbreviations should not be used as Keywords. Keywords should be picked from the Medical Subject Headings (MeSH) list (www.nlm.nih.gov/mesh/MBrowser.html).

Original articles should have the following sections.

Introduction
State concisely the purpose and rationale for the study and cite only the most pertinent references as background.

Material and Methods
Describe the plan, the patients, experimental animals, material and controls, the methods and procedures utilized, and the statistical method(s) employed. In addition to the normal peer review procedure, all randomized controlled trials (RCTs) submitted to the journal are sent to members of a team of professional medical statisticians for reviewing.

Address “Institutional Review Board” issues as stated above. State the generic names of the drugs with the name and country of the manufacturer. Provide information on informed consent and ethics committee approval.

Results
Present the detailed findings supported with statistical methods. Figures and tables should supplement, not duplicate the text; presentation of data in either one or the other will suffice. Emphasize only your important observations; do not compare your observations with those of others. Such comparisons and comments are reserved for the discussion section.

Discussion
State the importance and significance of your findings but do not repeat them. Do not reference the results section. Limit your opinions to those strictly indicated by the facts in your report. Compare your finding with those of others. Provide information on the limitations of the study. No new data are to be presented in this section.

The main text of case reports should be structured with the following subheadings: Introduction, Case Presentation, Discussion.

References
Number references in Arabic numerals consecutively in the order in which they are mentioned in the text starting with number “1”. Use the form of the “Uniform Requirements for Manuscript Submitted to Biomedical Journals” (http://www.amaassn.org/public/peer/wame/uniform.htm). If number of authors exceeds seven, list first 6 authors followed by et al.

Journal titles should conform to the abbreviations used in “Cumulated Index Medicus”.

Examples:

Journals:

Book chapter:

Book:

Tables and Figures
Tables should be included in the main document after the reference list. Colour figures or gray-scale images must be at minimum 300 DPI resolution. Figures should be submitted in “*.tiff”, “*.jpg” or “*.pdf” format and should not be embedded in the main document. Tables and figures consecutively in the order they are referred to within the main text. Each table must have a title indicating the purpose or content of the table. Do not use internal horizontal and vertical rules. Place explanatory matter in footnotes, not in the heading. Explain all abbreviations used in each table in footnotes. Each figure must have an accompanying descriptive legend defining abbreviations or symbols found in the figure. If photographs of people are used, the subjects must be unidentifiable and the subjects must have provided written permission to use the photograph. There is no charge for colour illustrations.

Units of measurement and abbreviations
Units of measurement should be in Systéme International (SI) units. Abbreviations should be avoided in the title. Use only standard abbreviations. If abbreviations are used in the text, they should be defined in the text when first used.

Revisions
Revisions will be sent to the corresponding author. Revisions must be returned as quickly as possible in order not to delay publication. Deadline for the return of revisions is 30 days. The editorial board retains the right to decline manuscripts from review if authors’ response delays beyond 30 days. All reviewers’ comments should be addressed and a revision note containing the author’s responses to the reviewers’ comments should be submitted with the revised manuscript. An annotated copy of the main document should be submitted with revisions. The Editors have the right to withdraw or retract the paper from the scientific literature in case of proven allegations of misconduct.

Accepted articles
Accepted articles are provided with a DOI number and published as ahead of print articles before they are included in their scheduled issue.

Contents

Original Investigations

64 Correlation of ultrasound estimated placental volume and umbilical cord blood volume in term pregnancy
Papinwit Pannopnut, Maethaphan Kitpomtheranunt, Parwara Paritakul, Kittipong Kongsomboon; Nakhon Nayok, Thailand

68 Labial adhesion and bacteriuria
Anoush Azarfar, Yalda Ravanshad, Sepideh Bagheri, Mohammad Esmaeeli, Mahmood Malek Nejad; Mashhad, Iran

70 The Great Recession of 2007 in the United States and the male: Female ratio at birth
Victor Grech; Tal-Qroqq, Malta

74 The impact of intrahepatic cholestasis of pregnancy on fetal cardiac and peripheral circulation
Seçil Kurtulmuş, Esra Bahar Gür, Deniz Öztekin, Erdü Şahin Güleç, Daygu Okyay, İbrahim Gülhan; İzmir, Turkey

80 Comparison of effects of nifedipine and ritodrine on maternal and fetal blood flow patterns in preterm labor
Baran Özhan Baykal, Sümyra Nergiz Accoğlu; Batman, Aydın, Turkey

86 Hyperprolactinemia has no effect on plasma ghrelin levels in patients with prolactinoma
Tuncay Delibaşi, Mıyesser Saykı Arslan, Erman Çakal, Mustafa Şahin, Oya Topaloğlu, Esra Tutal, İlknur Öztürk Ünsal, Başak Karbek, Bekir Uçan, Aşkan Güngüneş, Melia Karaköse, Mustafa Çalışkan, Taner Demirci, Gülfır Tabur, Mustafa Özbek; Ankara, Turkey

91 Mislocated intrauterine devices: Diagnosis and surgical management
Mustafa Kaplanoğlu, Mehmet Bülbül, Tuncay Yıace, Dilek Kaplanoğlu, Meral Aban; Adıyaman, İstanbul, Turkey

96 Addition of gonadotropin releasing hormone agonist for luteal phase support in in-vitro fertilization: an analysis of 2739 cycles
Erhan Şimşek, Esra Bulgan Kılıçdağ, Pinar Çağlar Aytaç, Seda Yüksel Şimşek, Tayfun Çok, Bülent Haydardeoeoğlu; Adana, Turkey

102 Bilateral sacrospinous fixation without hysterectomy: 18-month follow-up
Mehmet Baki Şentürk, Hakan Güraslan, Yusuf Cem Kaplan; İzmir, Turkey

Reviews

107 PARP inhibitors and more
Chinmoy K. Bose, Nirban Basu; West Bengal, India

111 Impact of obesity on infertility in women
Zeynep Özcan Dağ, Berna Dilbaz; Kırıkkale, Ankara, Turkey

Case Report

118 Prenatal diagnosis and management of a fetal neck mass
Erkek Doğer, Yasin Ceylan, Ahmet Yiğit Çakroğlu, Eray Çalışkan; Kocaeli, Turkey

Quiz

121 What is your diagnosis?
Cihan Çetin, Selim Bıyıklıurt, Nazan Özbarlas, Atıl Biggen, Fatma Tuncay Özgünen; Adana, Turkey

Letters to the Editor

123 Drug use and/or exposure in pregnancy: Presence of risk versus quantity of risk
Yusuf Cem Kaplan; İzmir, Turkey

124 Prior vaginal delivery is a predictive factor affecting success in trial of labor after cesarean section
Fatma Beyazıt; Çanakkale, Turkey
